Thumb Thing

If you like to read, you must have the Thumb Thing! Simply put the Thumb Thing on your thumb and pick up a book. The two wings will hold the pages open more easily than if you just used your hand, making reading more comfortable. Ideal for reading in bed, in the bath or at the beach. Since it allows you to read with one hand, it's great for commuters, especially if you have to read standing up. When you are finished reading, place the Thumb Thing in the top of the book as a bookmark. 4 sizes of the Thumb Thing are available and are sold in multiples of 12 per size. New packaging available that allows your customer to try the thumb thing on!
